

Invitation

Open House for City of Escanaba High Volume Utility Consumers

The City of Escanaba Electrical Advisory Committee and the organizations of the Delta County Commerce Center will host an open house informational session for those who have been identified as high volume users of electricity in the City of Escanaba.

The Open House is scheduled for February 8, 2007, from 4 to 6pm in room 958 of the Heirman University Center on the campus of Bay College

The session will begin with an introduction, brief presentation and an opportunity for participant discussion.

This will be the first of a series of Open Houses coordinated by the Commerce Center that are intended to provide background information to area electric customers about the status of the **Escanaba Energy Supply Project**.

It is the goal of the Commerce Center to continue to provide our members with accurate information and an opportunity to offer guidance and input as the City develops its future electric supply plan.

Please RSVP your attendance by calling the Commerce Center at 906-786-2192 or Gilbert Cheves, Project Manager at 786-9102. We look forward to seeing you there.

Sincerely,

Vickie Micheau
